PROFESSIONAL PROFILE

Computer Science graduate specializing in Data Science with internationally published research (Springer & IEEE). Strong analytical, communication, and problem-solving skills with experience in data-driven reporting, project coordination, and cross-functional collaboration. Adept at translating complex information into clear business insights in fast-paced, professional environments. Highly motivated to contribute to organizational performance and growth.

CORE COMPETENCIES & PROFESSIONAL SKILLS

Leadership & Management
Project Planning • Team Coordination • Resource Management

Data Analysis & Research
Statistical Modeling • Market Research • Data Processing

Technical Skills
Programming • Data Visualization • Databases • MS Office

Business & Operations
Process Optimization • Policy Implementation • Risk Assessment

Communication & Interpersonal
Writing & Presentation • Client Engagement • Negotiation

Problem Solving & Adaptability
Analytical Thinking • Critical Reasoning • Fast Learning • Time Management

PROFESSIONAL EXPERIENCE

Research Associate & Project Coordinator

- 2 years experience – 3 research projects, 1 thesis
- Data collection, validation, statistical analysis
- Data visualization for research insights & presentations
- Literature reviews & conference paper preparation
- Reports, executive summaries, presentations
- International collaborator communication
- 2 peer-reviewed publications
- Improved documentation efficiency by 40%

RESEARCH & PUBLICATIONS

Detection of Sugarcane Leaf Diseases Using Custom CNN and ResNet50

Islam, M.S. et al. — Springer ICIDA 2024 — 2025
Developed deep learning models for automated agricultural disease detection systems.

Earthquake Magnitude Prediction: A Survey on ML Models

Islam, M.S. et al. — Springer ICIDA 2024 — 2025
Comprehensive analysis of machine learning algorithms for disaster prediction.

REMP: Swin Transformer for Classifying Rare & Endangered Medicinal Plants

S.A. Alfi et al. — IEEE QPAIN 2025, Bangladesh
Implemented transformer architecture for endangered species conservation.

Comparative Forecasting of Sustainable and Green Energy Demand Across Bangladesh

IEEE COMPAS 2025, Bangladesh (Academic Thesis)
Analyzed sustainable energy forecasting models for Bangladesh.

CERTIFICATIONS & TRAINING
